Re: Comment letter dated November 16, 2004, File No. 1-8399

Dear Mr. Decker:

This letter is in response to your comments related to the Form 10-K for the period ended May 31, 2004 and the Form 10-Q for the quarter ended August 31, 2004 of Worthington Industries, Inc. (the "Company"). We take very seriously our responsibility to provide complete and accurate disclosures to the users of the financial information included in our filings. In preparing this information, we review the disclosure requirements established by the various governing bodies and reach a conclusion as to what is appropriate. We also consult with our independent auditors and our legal counsel. We feel this process ensures that what we report is in material compliance with the requirements. We will continue to employ this process in monitoring the changing disclosure requirements to ensure that we are in compliance. The following information consists of our responses to your letter and each response has been numbered to match the comments in your letter.

SEGMENT OPERATIONS

2. As disclosed in the segment footnote, the "Other" category includes corporate related items, results of immaterial operations and income and expense not allocable to the reportable segments. The operating loss for this "Other" category was \$1.0 million in fiscal 2004 compared to a loss of \$10.0 million for fiscal 2003. This \$9.0 million improvement is mainly due to a \$4.3 million and a \$2.7 million improvement in the Worthington Machine Technology ("WMT") and the Steelpac operations, respectively. In fiscal 2003, management decided that WMT would stop servicing external customers and focus only on the internal needs of Worthington Industries. This decision resulted in the elimination in fiscal 2004 of the \$2.6 million operating loss recorded in fiscal 2003 and also in fiscal 2003 we recorded a \$1.7 million reserve for severance and other items. The fiscal 2004 operations of Steelpac improved by \$2.0 million over fiscal 2003. In addition, \$0.7 million of equipment was written-off by Steelpac in fiscal 2003.

In future filings, significant fluctuations in operating income (loss) for the "Other" category will be discussed in the segment MD&A.
