THE BOARD OF DIRECTORS

The business and affairs of RTI are under the general direction of the Board of Directors. The Board presently consists of ten members, eight of whom are neither officers nor employees of RTI or its subsidiaries. The Board of Directors has determined that Craig R. Andersson, Daniel I. Booker, Donald P. Fusilli, Jr., Ronald L. Gallatin, Charles C. Gedeon, Robert M. Hernandez, Edith E. Holiday and James A. Williams all meet the New York Stock Exchange rules and listing standards relating to independence generally and for all committees on which they serve. None of the independent directors has a relationship with the Company that is material.

The Board met seven times during 2005. All of the directors attended more than 75% of the total number of meetings of the Board and of the committees on which they serve, except for Mr. Fusilli, who underwent major surgery in January of 2005 and who then took an extended medical leave of absence from his duties until April of 2005. The Chairman of the Board chairs the regularly-scheduled executive sessions of the non-management directors. In the Chairman's absence, the chairperson of the Nominating/ Corporate Governance Committee chairs the meeting.

It is the policy of the Nominating/ Corporate Governance Committee to consider recommendations by shareholders, directors, officers, employees, and others for nominees for election as director.

Recommendations, together with the nominee's qualifications and consent to be considered as a nominee, should be sent to the Secretary of RTI for presentation to the Committee. Board Membership criteria considered by the Committee is discussed below under the caption "Nominating/ Corporate Governance Committee" and is set forth in the Company's Corporate Governance Guidelines, available free of charge on the RTI Website, www.rtiintl.com, or by sending a written request to the corporate Secretary at the address set forth under the caption "Other Information" on the last page of this proxy statement.

There are four principal committees of the Board of Directors. Committee membership, the functions of the committees and the number of meetings held during 2005 are described below.

Executive Committee

The members of the Executive Committee are Robert M. Hernandez (Chairman), Craig R. Andersson, Charles C. Gedeon, John H. Odle and Timothy G. Rupert.

The Executive Committee assists the Board in the discharge of its responsibilities and may act on behalf of the Board when emergencies or scheduling make it difficult to convene the Board. All actions taken by the Committee must be reported at the Board's next meeting. During 2005, the Executive Committee held one meeting.

Audit Committee

The members of the Audit Committee are Robert M. Hernandez (Chairman), Craig R. Andersson, Donald P. Fusilli, Ronald L. Gallatin, Charles C. Gedeon and James A. Williams. All of the members of this Committee meet the New York Stock Exchange's rules and listing standards for audit committee independence. The Board has determined that Messrs. Hernandez, Fusilli, Gallatin and Williams are each qualified as an audit committee financial expert within the meaning of Securities and Exchange Commission regulations and that each of the members of the Audit Committee has accounting or financial management expertise within the meaning of the listing standards of the New York Stock Exchange.

The Audit Committee assists the Board in overseeing RTI's financial reporting process and systems of internal accounting control, RTI's compliance with legal and regulatory requirements and qualifications, independence and performance of RTI's internal auditors and independent registered public accounting firm. The Committee has direct responsibility for the appointment, compensation, retention and oversight of RTI's independent registered public accounting firm. The Committee has adopted, and the Board has approved, the Committee charter, available free of charge on the RTI

Website, www.rtiintl.com, or by sending a written request to the corporate Secretary at the address set forth under the caption Other Information on the last page of this proxy statement.

This Committee serves as a compensation committee by discharging the Board's duties concerning executive compensation and prepares the report on such compensation required by the Securities and Exchange Commission.

All of the members of this Committee meet the NYSE's rules and listing standards for independence for purposes of this Committee.

The Human Resources Committee is responsible for review and approval of RTI's compensation philosophy; executive compensation programs, plans and awards; and policies, principles and procedures for selection and performance review of the CEO and other top management; and for establishing the CEO and other top management's compensations levels based on the Committee's evaluation of their performance. The Committee also administers RTI's long term incentive plans and stock or stock-based plans. The Committee has adopted, and the Board has approved, a Committee charter which is available free of charge on the RTI Website, www.rtiintl.com, or by sending a written request to the corporate Secretary at the address set forth under the caption Other Information on the last page of this proxy statement.

The Committee considers director candidates submitted by directors, officers, employees, shareholders and other constituencies. The Committee is also responsible for developing and recommending to the Board corporate governance principles applicable to RTI as well as their periodic review. The Committee has adopted, and the Board has approved, a Committee Charter that is available free of charge on the RTI Website, www.rtiintl.com, or by sending a written request to the corporate Secretary at the address set forth under the caption Other Information on the last page of this proxy statement.

The Nominating/Corporate Governance Committee annually reviews the skills and attributes of board members within the context of the current make-up of the full Board. Board members should have individual backgrounds that when combined provide a portfolio of experience and knowledge that will serve RTI's governance and strategic needs. Board candidates may be suggested by members of the Committee as well as other directors, management, shareholders, and others, and will be considered on the basis of a range of criteria including broad-based business knowledge and contacts, prominence, diversity of talents and background and sound reputation in their fields as well as a global business perspective and commitment to corporate citizenship. Additional information concerning director candidates is contained in RTI's Corporate Governance Guidelines, available free of charge on the RTI Website at www.rtiintl.com or by sending a written request to the corporate

For 2005, PricewaterhouseCoopers LLP rendered professional services in connection with the audit of the financial statements of RTI and its subsidiaries, including review of quarterly reports and review of filings with the Securities and Exchange Commission and provided tax consulting services. **THE BOARD RECOMMENDS A VOTE FOR RATIFICATION OF THE APPOINTMENT OF
PRICEWATERHOUSECOOPERS LLP AS
RTI S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR 2006.**

Audit Committee Report

The committee met with management, PricewaterhouseCoopers LLP, and the Director of Internal Audit frequently throughout the year to review and consider the adequacy of RTI s internal control over financial reporting and the objectivity of its financial reporting, including compliance with Section 404 of the Sarbanes-Oxley Act of 2002. We also discussed with RTI s management and PricewaterhouseCoopers LLP the process used for certifications by RTI s chief executive officer and principal financial officer that are required for certain of RTI s filings with the Securities and Exchange Commission. We have reviewed and discussed RTI s 2005 audited financial statements with management and with PricewaterhouseCoopers LLP. The committee also discussed with the independent accountants the matters required to be communicated by Statement on Auditing Standards (SAS) No. 61 as amended by SAS No. 90 (Communications With Audit Committees).

In addition, the committee received from the independent accountants the written disclosures required by Independence Standards Board Standard No. 1 and discussed with them their independence from RTI and its management. We have considered whether the provision by PricewaterhouseCoopers LLP of the professional services described above was compatible with the maintenance by PricewaterhouseCoopers LLP of its independent status and have determined that it was.

Based on these reviews and discussions, we recommended to RTI s Board of Directors, and the Board has approved, that the Audited Financial Statements be included in RTI s Annual Report on Form 10-K for the year ended December 31, 2005 for filing with the Securities and Exchange Commission.

Human Resources Committee Report on Executive Compensation

Overview

This Committee administers RTI's stock-based compensation plans and is also responsible for all other executive compensation matters. RTI had adopted a comprehensive statement entitled "Pay Philosophy and Guiding Principles Governing Officer Compensation" (the "Pay Statement") which is applicable to RTI's President and CEO, Executive Vice President, Senior Vice President and each Vice President. Principal components of the Pay Statement are as follows:

The philosophy set forth in the Pay Statement is to have RTI's officer compensation programs:

Promote achievement of RTI's business objectives and reinforce its strategies;

Align the interests of the Company's officers with those of its shareholders; and

Provide pay that is externally competitive and internally equitable, that rewards accomplishment to the extent identifiable and measurable, and that delivers significant rewards for exceptional performance.

Table of Contents

The Pay Statement includes specific guiding principles. These include pay program characteristics of:

Variability: A large portion of total compensation will be based upon Company performance, recognizing the highly cyclical nature of the Company's business. While salaries will generally be maintained at competitive levels, the major opportunities for significant upward shifts in total compensation will be provided through short-term and long-term incentive programs.

Clarity: Performance objectives for short-term and long-term incentive programs will be clearly articulated to executives and normally the objectives will be predetermined and related performance evaluations will thus be straightforward. However, if deemed necessary by the Company's board, after-the-fact discretionary judgment will be applied.

Communicability: Officers will be aware of and fully understand their earnings potential for a given year and what specific actions and results are needed to achieve these earnings.

Strategic Emphasis: The Pay Statement sets out the approximate proportion of total direct compensation to be represented by salary, short-term (bonus) and long-term incentives assuming both short-term and long-term incentives are paid at target levels by classes of officer as follows:

President and CEO 35% salary, 20% bonus and 45% long-term incentives.

Executive Vice President 40% salary, 20% bonus and 40% long-term incentives.

Senior Vice Presidents 40% salary, 20% bonus and 40% long-term incentives.

Vice Presidents 45% salary, 15% bonus and 40% long-term incentives.

The Pay statement provides that RTI's officers compensation should range at about the average or median of the remuneration paid by the Company's comparator group when aspects of performance are at target levels.

Salary

Executive salary is to be paid to reward performance and accomplishment in recognition of consistent excellent performance over a number of years. Individual salary increase levels will reflect a variety of factors including relevant experience, time in position and individual performance as measured in an annual performance review.

Bonuses

The major role of annual incentive, or bonus payments is to motivate officers through the recognition of attainment of specific key objectives and/or other strategic milestones or operational goals. Bonuses are to be paid pursuant to the following guidelines and maintained near the median for that for similar positions at appropriate comparator companies:

President and CEO Bonus may range from 0 to 120% of annual salary with a target of 60% of annual salary.

Executive Vice President Bonus may range from 0 to 100% of annual salary with a target of 50% of annual salary.

Senior Vice President Bonus may range from 0 to 100% of annual salary with a target of 50% of annual salary.

Vice Presidents Bonus may range from 0 to 80% of annual salary with a target of 40% of annual salary. No bonus will be paid to an officer whose performance is judged to be unacceptable regardless of the level of corporate performance. Likewise, the Board may pay bonuses to recognize exceptional individual performance regardless of the level of corporate performance.

Table of Contents

Long-term Incentives

Long-term incentive awards are designed specifically to reward increases in shareholder wealth as measured by the price of the Company's common stock as well as improvement in earnings per share. Long-term incentive grants will be made pursuant to the Company's 2004 Stock Plan and may be made in a combination of stock (which may be restricted shares, performance shares, phantom stock or non-restricted shares) and stock options. The total projected value of long-term incentive grants are to be divided roughly between stock and options and in the ranges as follows:

President and CEO Long-term incentives should be split roughly 80% stock and 20% stock options and should range in value between 90% and 130% of annual salary.

Executive Vice President Long-term incentives should be split roughly 75% stock and 25% stock options and should range in value between 80% and 120% of annual salary.

Senior Vice President Long-term incentives should be split roughly 75% stock and 25% stock options and should range in value between 75% and 110% of annual salary.

Vice Presidents Long-term incentives should be split roughly 70% stock and 30% stock options and should range in value between 40% and 80% of annual salary.

Comparative Data

The Pay Statement recognizes that there is a dearth of U.S. companies that compete directly with RTI and because managerial talent can be found in organizations other than competing companies, the compensation data selected for use in company and/ or individual position comparisons should include information on a broad group of U.S. industrial companies similar to RTI in terms of sales volume, or as appropriate, assets, total capital, market value or number of employees. When appropriate and available, data specific to the metals industry or a specific position should be used.

Compensation of the President and Chief Executive Officer

The Human Resources Committee meets each year to evaluate the performance of Mr. Rupert the results of which are used to determine his compensation. On January 28, 2005, the Committee set Mr. Rupert's salary for 2005. This year the Committee met on January 27, 2006 to review Mr. Rupert's 2005 performance, award him his bonus and long-term awards pursuant to the Pay Statement, and set his 2006 salary.

The terrorist attacks on September 11, 2002, severely impacted the aerospace markets served by the titanium industry and this impact continued up until the beginning of 2004. From approximately the middle of 2004 onward, the aerospace industry saw a significant turnaround in its business, which in turn positively impacted the markets served by the titanium industry. During 2004 and throughout 2005, the management team at RTI concentrated its efforts on strengthening its relationships with the commercial and defense aerospace industries, while simultaneously working to realize the operational benefits obtained in its recently negotiated labor agreement with the United Steelworkers of America for the Niles manufacturing facility. During this same time period, Mr. Rupert and his management team focused on assimilating its new Canadian acquisition - Claro Precision, Inc., into RTI and also working to bring the company into compliance with the on-going requirements of the Sarbanes-Oxley Act of 2002.

After review of Mr. Rupert's performance in 2004 against his objectives, RTI operating and financial performance, cash flow, return on assets and shareholder return, in January 2005, the Committee set Mr. Rupert's 2005 annual salary at \$450,000. Mr. Rupert's percentage increase in his annual salary from 2004 to 2005 was approximately 3.4%.

In January 2006 the Committee reviewed Mr. Rupert's 2005 performance. The Committee concluded that Mr. Rupert did an outstanding job of leading the Company through the upturn in the markets, reflected in substantial increases in sales and production, while generating a net income of

Table of Contents

\$38.9 million. Income and Return on Assets also substantially exceeded Plan, though Cash Flow did not. Importantly, shareholder return was 85%. Mr. Rupert also made substantially all of his personal objectives. The only negative aspect to CEO performance was the Company's disclosure in its untimely filed Form 10-K of a number of material weaknesses in internal controls.

Considering the above, the Committee awarded Mr. Rupert a bonus of \$425,000. This bonus is 94% of annual salary and would have been at or close to the maximum of 120% permitted by the Pay Philosophy were it not for the material weaknesses in internal controls mentioned above.

Mr. Rupert's long term incentives were in the form of restricted stock and stock options. Both awards, in terms of number of shares, were lower than last year by approximately one-third, but that is because the price of RTI stock has appreciated considerably. The Committee believed, taking into consideration all of the above factors as well as his other employment and retirement benefits disclosed elsewhere in this proxy statement, that the value of Mr. Rupert's overall compensation should exceed target as measured by the Pay Philosophy and developed his long term awards with that objective in mind, but staying within other parameters set by the Pay Philosophy.

Stock Performance Graph

Set forth below is a line graph comparing the five year cumulative total return to shareholders on RTI's Common Stock with the cumulative total return of the S&P 500 Stock Index and two industry peer groups.

The Old Peer Group presented below consists solely of Titanium Metals Corporation.

RTI's business is comprised of two operating groups. The first is a mill operation that produces titanium mill products. The second is a diversified group of several businesses, including metal product distribution, oil and gas components and fabricated aerospace products. Given this diverse operating model, RTI's management believes that the Old Peer Group is no longer appropriate and that it should be expanded.

The New Peer Group presented below was compiled to more accurately reflect the performance of the industry by selecting peers in each of RTI's operating groups. It is comprised of the following companies:

Allegheny Technologies Incorporated; A.M. Castle & Co.; Brush Engineered Materials Inc.; Carpenter Technology Corporation; CPI Aerostructures, Inc.; Dril-Quip, Inc.; Ducommun Incorporated; LMI Aerospace, Inc.; Reliance Steel & Aluminum Co.; RTI; Ryerson Inc.; Titanium Metals Corporation; and Triumph Group, Inc. Performance within the New Peer Group is weighted by market capitalization.

Retirement Benefits

Pension Plan

RTI's Pension Plan is a defined benefit plan which first became effective at RMI Company (a predecessor of RTI) in 1971. The Pension Plan recognizes, for pension benefits, services and compensation with RTI, RMI Titanium Company, RMI Company, Reactive Metals, Inc. (a predecessor of RMI Company), United States Steel Corporation, USX Corporation, Quantum Chemical Corporation, or subsidiaries of each. The amounts payable under the Pension Plan will be paid monthly after a participant retires. The table below shows the annual pension benefits for

retirement at age 65 (or earlier under certain circumstances) for various levels of eligible earnings which would be payable to employees retiring with the years of service shown under the Pension Plan and the Excess Benefits Plan (described below). The benefits are based on a formula which provides under normal retirement amounts equal to 1.25% of the average monthly earnings multiplied by continuous years of service up to and including 30 years; plus 1.35% of the average monthly earnings multiplied by continuous years of service in excess of 30 years of a specified percentage (dependent on years of service) of average annual eligible earnings in the five consecutive years in the ten years prior to retirement in which such earnings are highest. Eligible earnings include only base salary. Incentive awards and similar benefits are excluded, although the amount of such benefits is included in the Summary Compensation Table. Benefits payable under the Pension Plan, and amounts reflected in the following table are subject to offsets for social security benefits and, in certain instances, pensions payable under the U.S. Steel and the Quantum pension plans. As of December 31, 2005, Mrs. Hickton had 8 credited years of service, Mr. Odle 28, Mr. Berkstresser 6 and Mr. Rupert 37. Average annual eligible earnings as of December 31, 2005, for purposes of the pension benefits under the RTI Pension Plan and, if applicable, the Excess Benefits Plan (described below) for each of the following named executive officers are as follows: Mrs. Hickton, \$185,334; Mr. Odle, \$274,618; Mr. Berkstresser, \$138,317 and Mr. Rupert, \$412,337.

The Internal Revenue Code imposes limits on the amount of annual eligible compensation under tax-qualified pension plans. For 2005, annual compensation in excess of \$210,000 cannot be taken into account in determining qualified plan benefits. RTI maintains the RTI International Metals, Inc. Excess Benefits Plan (the Excess Benefits Plan) for certain highly compensated employees who participate in RTI's tax-qualified pension plans and would otherwise be limited by such tax limits. The Excess Benefit Plan is an unfunded excess benefit plan within the meaning of Section 3(36) of the Employee Retirement Income Security Act of 1974, as amended. It provides additional retirement income in an amount equal to the difference between benefits that would have been received under the Pension Plan but for the limitations imposed by the Internal Revenue Code and amounts actually payable under the Pension Plan. Participants must be designated by the Board of Directors; at this time only Messrs. Rupert and Odle have been designated by the Board of Directors as being covered by the Excess Benefits Plan.

Officers participating in the Incentive Compensation Plan are also eligible for the RTI Supplemental Pension Program. If they retire or otherwise terminate employment after age 60, or prior to age 60 with RTI consent, they will be entitled to receive the benefits shown in the table below based on bonuses paid under the Incentive Compensation Plan.

RTI has agreed with Mr. Rupert that his continuous service for purposes of the Supplemental Pension Program shall include his service with USX Corporation and its predecessor U.S. Steel. As of December 31, 2005, Mrs. Hickton had 8 credited years of service, Mr. Odle 28, Mr. Berkstresser 6 and Mr. Rupert 37. Average annual bonus as of December 31, 2005, for purposes of the pension benefits under the RTI Supplemental Pension Program for each of the following named executive officers are as follows: Mrs. Hickton, \$114,000; Mr. Hull, \$15,000; Mr. Odle, \$160,000; Mr. Berkstresser, \$58,000 and Mr. Rupert, \$365,000.

The benefits shown above are based on a formula whereby the average annual bonus for the highest five years in the preceding ten year period are multiplied times a factor. The factor is determined by multiplying 1.5% for each year of continuous service. Participants in the plan may elect to have the monthly benefit as a result of the formula paid monthly for life or receive a lump sum distribution based on the present value of the amounts payable. The plan provides for surviving spouse benefits at a reduced rate.

In order to comply with the limitations of the Internal Revenue Code, pension benefits will be paid directly by RTI when they exceed the amounts permitted by the Code to be paid from federal income tax qualified pension plans.

Employment Agreements

On August 1, 1999, RTI entered into employment agreements with Mrs. Hickton and Messrs. Jacobs, Odle and Rupert covering their employment for an initial four year term and for additional one year terms each year thereafter until the officer attains age 65 unless terminated prior thereto by either party on 120 days notice. Under the agreements, each officer will be paid the annual salary set forth, subject to increases from time to time in the sole discretion of RTI. RTI may terminate the services of the officer at any time for cause as defined in the agreement. Officers each agree not, for a period of 24 months after the end of the employment period or employment termination, whichever occurs first, to be employed by, or otherwise participate in, any business which competes with RTI. This restriction does not apply if the officer terminates employment with RTI under certain circumstances following a change in control of RTI as defined.

Table of Contents

The employment agreements also provide that the officer will be entitled to certain severance benefits in the event of termination of employment under certain circumstances following a change in control as defined.

These are:

a cash payment of up to three times the sum of the officer's current salary plus the highest bonus in the four years before the date of termination,

all unvested restricted stock and options will vest immediately,

life, disability, accident and health insurance benefits for 24 months after termination,

a cash payment of the amount necessary to insure that the payments listed above are not subject to net reduction due to the imposition of federal excise taxes.

The severance benefits are payable if, any time after a change in control, the officer's employment is terminated by the officer for good reason or by RTI other than for cause or disability. In addition the benefits are payable to Mr. Odle or Mr. Rupert in the event either of them terminates employment within 90 days after a change in control.

The definition of a change in control for purposes of these agreements is complex but is summarized as follows. It includes any change in control required to be reported in response to Item 6(e) of Schedule 14A under the Securities Exchange Act of 1934 and provides that a change in control will have occurred if:

any person not affiliated with RTI acquires 20 percent or more of the voting power of our outstanding securities,

the Board no longer has a majority made up of (1) individuals who were directors on the date of the agreements and (2) new directors (other than directors who join the Board in connection with an election contest) approved by two-thirds of the directors then in office who (a) were directors on the date of the agreements or (b) were themselves previously approved by the Board in this manner.

RTI merges with another company and RTI's shareholders end up with less than 50 percent of the voting power of the new entity,

our shareholders approve a plan of complete liquidation of RTI, or

we sell all or substantially all of RTI's assets.

Mr. Jacobs resigned from the office of Vice President and Chief Financial Officer effective August 10, 2005. RTI and Mr. Jacobs agreed that he would remain an employee under the terms of his employment agreement through July 31, 2006.

Under the employment agreement dated as of August 1, 1999 between RTI and Mr. Odle, RTI agreed that if he continues in active employment with RTI until either age 65, or such earlier date as the RTI Board of Directors may approve, RTI at his retirement will pay him a one time lump sum payment of the then present value of the 9.16 years of non-pensionable service attributable to periods he was employed by U.S. Steel (3.58 years) and the Company (5.58 years) which pre-date his current period of employment, calculated pursuant to the RTI Pension Plan and its Supplemental Pension Program.

On November 1, 1999 RTI entered into an employment agreement with Mr. Berkstresser covering his employment for an initial four year term and for additional one year terms each year thereafter until he attains age 65 unless terminated prior thereto by either party on 120 days notice. Under the agreement, he will be paid the annual salary set forth, subject to increases from time to time in the sole discretion of RTI. The agreement contains the other terms and conditions described above as being contained in the agreements with Mrs. Hickton and Mr. Jacobs.

On December 6, 2003, RTI entered into a letter agreement with Mr. Rupert (the 2003 Letter) with respect to Mr. Rupert's retirement benefits. The 2003 Letter provided for an amendment to the RTI Supplemental Pension Program allowing the benefits payable to Mr. Rupert under the RTI Supplemental Pension Program to be calculated in a manner that includes Mr. Rupert's service with USX Corporation and its predecessor U.S. Steel, and with RTI. This amendment was effected in January 2004. RTI's obligations toward such benefit shall continue notwithstanding any termination of the RTI Supplemental Pension Program. The 2003 Letter superceded a previous letter agreement with respect to Mr. Rupert's benefits dated April 13, 1992, between Mr. Rupert and RMI Titanium Company, signed by L.F. Gieg, Jr. In addition, the 2003 Letter provides that Mr. Rupert's pension under the RTI Pension Plan is calculated based solely upon the terms of the RTI Pension Plan, using Mr. Rupert's combined years of service with the USX and RTI, reduced by the amount of any retirement benefits payable under the U.S. Steel Pension Plan. Mr. Rupert further agreed in the 2003 Letter that RTI will not have an obligation to make up any difference in (a) any pension benefit Mr. Rupert would have received from the U.S. Steel Pension Plan had Mr. Rupert remained employed by USX and (b) the actual combined pension benefit Mr. Rupert will receive from the U.S. Steel Plan and RTI. Finally, in the event that Mr. Rupert fails to receive from the U.S. Steel pension plan the pension benefits owed to him (estimated to be approximately \$33,436 per year), after using reasonable efforts to collect his benefits through the U.S. Steel pension plan's claims and appeals procedures, RTI agrees under the 2003 Letter to guarantee the full payment of such benefits, and Mr. Rupert agrees to cooperate with RTI in connection with any claim or action for reimbursement of all or any portion of such payments made under such guarantee. The effects of the 2003 Letter are reflected in the description of Mr. Rupert's pension benefits set forth above.

On July 29, 2005, RTI entered into an employment agreement with Mr. Hull covering his employment for an initial three year term and for additional one year terms each year thereafter until he attains age 65 unless terminated prior thereto by either party on 90 days notice. Under the agreement, he will be paid the annual salary set forth, subject to increases from time to time in the sole discretion of RTI. The agreement contains the other terms and conditions described above as being contained in the agreements with Mrs. Hickton and Mr. Jacobs except that Mr. Hull's cash severance benefit is based on current base salary and the average annual bonus in the three years before the date of termination.
