Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

THERMO FISHER SCIENTIFIC INC.

Item 8.01 Other Events

With the completion of our acquisition of Life Technologies, we have established a new reporting segment, called Life Sciences Solutions. Effective January 1, 2014, the company's financial performance is reported in four segments reflecting the following changes:

- The new Life Sciences Solutions segment consists of the majority of the former Life Technologies businesses and Thermo Fisher biosciences businesses.
- Thermo Fisher's global chemicals business has moved from the Biosciences business in the Analytical Technologies segment to the Laboratory Products and Services segment.
- Thermo Fisher's Analytical Technologies segment has been renamed the Analytical Instruments segment to reflect the transfer of the biosciences businesses to other segments, as mentioned above.
- Two small specialty diagnostics businesses within Life Technologies have become part of the Specialty Diagnostics segment.

The results of the biosciences businesses were reported as part of the Life Sciences Solutions segment or the Laboratory Products and Services segment, as described above, for each period presented in the Company's first quarter 2014 Quarterly Report on Form 10-Q filed with the SEC on May 2, 2014.

Exhibit 99.1 of this Form 8-K updates Items 7 and 8 of the Company's Annual Report on Form 10-K for the year ended December 31, 2013 (the "2013 Form 10-K"), which was filed with the Securities and Exchange Commission on February 27, 2014, to reflect the new segment and reclassification of segment information discussed above. The segment reclassification had no effect on the Company's historical reported net income or earnings per share.

The information set forth in Exhibit 99.1 continues to report and disclose information as of February 27, 2014, the date the 2013 Form 10-K was filed, and the Company has not updated or amended the disclosures contained therein to reflect events that have occurred since the filing of the 2013 Form 10-K, or modified or updated those disclosures in any way other than as required to update the segment disclosures for all periods presented to reflect the transfer of the biosciences businesses from the Analytical Technologies segment to the Life Sciences Solutions segment and the Laboratory Products and Services segment, as described above. Accordingly, Exhibit 99.1 should be read in conjunction with the Company's filings made with the SEC subsequent to the filing of the 2013 Form 10-K.

This Current Report on Form 8-K contains forward-looking statements that involve a number of risks and uncertainties. Important factors that could cause actual results to differ materially from those indicated by such forward-looking statements are set forth in the Company's Quarterly Report on Form 10-Q for the quarter ended March 29, 2014, under the caption "Risk Factors," which is on file with the Securities and Exchange Commission and available in the "Investors" section of our Website under the heading "SEC Filings." Important factors that could cause actual results to differ materially from those indicated by forward-looking statements include risks and uncertainties relating to: the need to develop new products and adapt to significant technological change; implementation of strategies for improving growth; general economic conditions and related uncertainties; dependence on customers' capital spending policies and government funding policies; the effect of exchange rate fluctuations on international operations; the effect of healthcare reform legislation; use and protection of intellectual property; the effect of changes in governmental regulations; and the effect of laws and regulations governing government contracts, as well as the

possibility that expected benefits related to the Life Technologies acquisition may not materialize as expected. While we may elect to update forward-looking statements at some point in the future, we specifically disclaim any obligation to do so, even if our estimates change and, therefore, you should not rely on these forward-looking statements as representing our views as of any date subsequent to the date of this Current Report on Form 8-K.

Item 9.01 Financial Statements and Exhibits
